

Lacock Primary School Year 1 DT Knowledge Organiser November 2023

Important Vocabulary

Nest	Strong
sturdy	soft
camouflage	twist
stiffer	stable
Natural	materials
Straw	Moss
Bark	Leaves
Feathers	twigs

Choose twigs that you can bend and twist

What I should already know:

How to build structures

Your nest MUST be:

- Well camouflaged in case of predators.
- Strong and sturdy to withstand the weather.
- Soft inside to protect eggs and Owlets.

Materials—what will you choose?

Key Skills

- *Discuss what their steps for making could be
- * Join, assemble and combine materials and components
- *Talk about their design ideas and what they have made

Build your owls nest

Key Knowledge

- To know how to build structures and how they can be made stronger, stiffer and more stable.
- Know and use technical vocabulary relevant to the project.

This learning will help me in the future when I learn:

Further structure building in Beech
