

## Parent Welcome Pack

This pack is to help you understand the benefits of ParentMail, what this means for you and to provide you with some tips on getting started.

### Getting Registered

Registering on ParentMail allows you to download the mobile App and have a dedicated account for school meals.

Shortly, you'll be sent a registration message either by email and/or text by Lataca Ltd which will look like this:

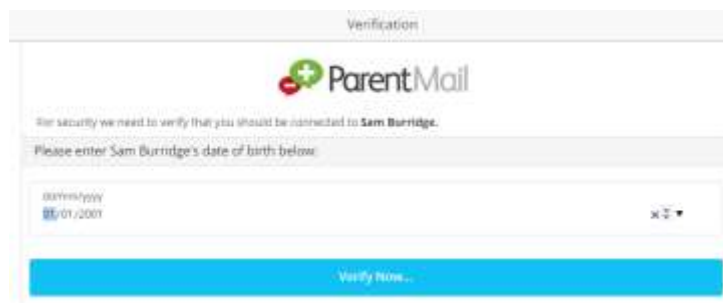

**Not received your registration link? Please check your email junk/spam folder. Please contact Lataca directly if you have still not received it at [info@lataca.co.uk](mailto:info@lataca.co.uk)**

**Please note: If you already have a registered ParentMail account with another child at this school, you do not need to register and will automatically connect with the new starter.**

### How to Register:

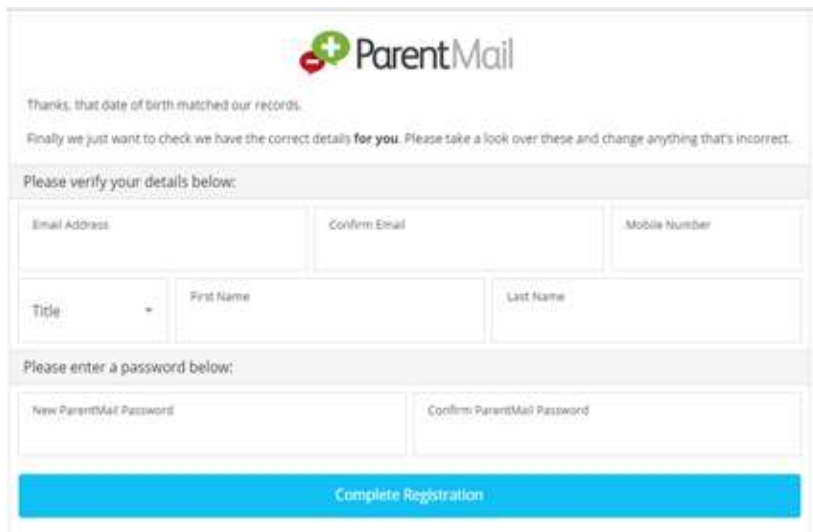

- 1) Click on the link (within the text message) or 'Register'/'Manage my Connection' (within the email).
- 2a) If you have **never had** a ParentMail account, click 'I don't have a ParentMail PMX account'
- \* 2b) If you **already have** a ParentMail account with another school, click 'I already have a ParentMail PMX account'

- 3) Enter your child's date of birth.

\* You can now login with your existing login credentials and look forward to receiving communications straight to your account.

**New ParentMail users, please follow the instructions below:**

The screenshot shows the ParentMail registration verification page. At the top, the ParentMail logo is displayed. Below the logo, there is a message: "Thanks, that date of birth matched our records. Finally we just want to check we have the correct details for you. Please take a look over these and change anything that's incorrect." The page is divided into two main sections: "Please verify your details below:" and "Please enter a password below:". The first section contains three input fields: "Email Address", "Confirm Email", and "Mobile Number". The second section contains three input fields: "Title", "First Name", and "Last Name". Below these sections, there are two more input fields: "New ParentMail Password" and "Confirm ParentMail Password". At the bottom of the form, there is a blue button labeled "Complete Registration".

4) Create your password – **this must be 8 characters long with at least one number.**

**Next... Download the FREE ParentMail App**

Go to either the App Store (iPhone users) or the Google Play Store (Android Users) and search for **'ParentMail'**

**Once you have downloaded the App, you can log in using the details created during Registration. Please note that your email address will be your user login.**

**Forgotten your ParentMail password?** Click on the Forgotten Password link and enter your email address. You will then receive an email to reset the password.

## FAQ's

**Why is my registration link asking me to connect to a different school?**

Registration links are sent in order. If you have been invited to connect to a different school/organisation previously, you will need to complete that registration first. You will then be able to click on the link again to see the invite to your new school. Please contact the school if you have any concerns.

**Why has my registration link expired?**

You are receiving this message because you have already registered. Please go to [pmx.parentmail.co.uk](http://pmx.parentmail.co.uk), or download our free parent App and login with the email address and password that you created when registering.

## **Where can I see my children?**

Lataca will have connected your account to both or all of your children when they set up your ParentMail account, so all you need to do is register and you will be connected to all your children at the same school. The account will be empty until Lataca send messages out and this will be when you see the child the message relates to.

## **Where can I get help?**

We have an extensive parent help site (<https://www.parentmail.co.uk/help/parenthelp/>). Once you have logged into ParentMail, click on 'Help' and it will open the Help Site which is split into different topics for you to navigate through.

## **What if I don't want to register?**

If you do not register, you will still receive emails to your email account, however you will not be able to order school dinners.

## **Is ParentMail GDPR compliant?**

Under GDPR regulations, schools have legal basis to provide education and communicate information about children's education to their parents and therefore no additional consent is required to use ParentMail for this purpose. However, if you do have concerns about your data being used, please refer to our data protection overview to read more on what data we take and how this is used. Please find our privacy policy here: <https://www.parentmail.co.uk/gdpr/>

## **How do I delete my account?**

You can unsubscribe or delete your account at any time with Parentmail. To delete your account, login to ParentMail and go to **Settings, Delete Account**. Confirm with your password. You will be able to cancel this request within 7 days, after which it will be permanently deleted.
