

Lacock Primary School Year 1– DT Knowledge Organiser – Plant Pots

Important Vocabulary	
<i>Product</i>	<i>join</i>
<i>design</i>	<i>improve</i>
<i>materials</i>	<i>evaluate</i>
<i>strengthen</i>	<i>purpose</i>
<i>cut</i>	<i>research</i>
<i>shape</i>	<i>finishing</i>
<i>measure</i>	<i>adapt</i>

Design and make a plant pot from junk materials

Key Skills

- Identify best materials used to make the product
- Explain why their design is suitable
- Represent ideas through drawing.

Tools

Tools available

Key Knowledge/Facts

- A plant pot is a type of container.
- It needs to let water drain through.
- It needs to be strong to hold the soil in place.
- It needs to be stable so that it doesn't tip over.

What I should already know:

How to use materials to make a products in EYFS

This learning will help me in the future when I learn:

Further design work in Beech Class
