## Key Knowledge/Facts

That Lacock is a small village in Wiltshire, England.

That a village is a small place in the countryside.

That physical geography means naturally made features such as hill, river and trees.

That human geography means features that have been made by people such Lacock Abbey, the Museum and the bridge.

To know that a map is a picture from above

What I should already know:

That Lacock is where  
our school is.

This learning will help  
me in the future when  
I learn:

All Geography work in  
Beech Class
